

BCubed® for BIGGBY® COFFEE BTECHNICAL BULLETIN Floor Plan and Equipment Placement

The BCubed® for BIGGBY® COFFEE building operates with a patented design that maximizes the 349 square feet of space. To ensure proper operation the placement of appliances and equipment is required to follow the interior floor plan for your building model provided by BCubed as well as labeling on outlets.

Purchaser is responsible for unpacking boxed equipment, disposal of packaging, installation, and placement per BCubed Floor Plan for the building model. Should equipment be installed or later moved to a location different than the floor plan for your building model or labeled electrical outlets circuit overloading, issues with tripping breakers, or damage to equipment may be experienced.

BCubed is not responsible for damage to the building, appliances, furnishings, or equipment because of Purchaser altering the placement and powering equipment or appliances from outlets in locations other than those designated.
